Proposed Measure Unit	Proposed 100% Payment	€

MEASURE VERIFICATION CHECKLIST	YES	NO
Is the In-Drain Pond located in the position identified on the project farm plan by the date specified in the project plan (If the answer is no 100% non-payment)		
Has the In-Drain Pond been excavated to a sufficient depth to allow silt or sediment to settle (If answer is no remedial maintenance action is required)		
Is there evidence the ecological integrity of the site has been altered as a result of implementation of the measure (If answer is yes remedial action is required)		
Is the In-drain pond fenced off from livestock with a fence line which is fit for purpose (If answer is no remedial action is required)		
Is it evident that check dams have been installed at the exit of the In-Drain pond sufficiently to allow silt or sediment to settle in the In-Drain pond (If answer is no remedial maintenance action is required)		
Are the check dams where present constructed from graded broken stone or timber (If answer is no remedial action is required)		
Is there any evidence of poaching or livestock drinking points in or adjacent to the In-Drain pond (If answer is yes 10% reduction in payment)		
Is there evidence that pesticides have been applied within prescribed buffer zones to the In-Drain pond or drains entering the swale (If answer is yes 10% reduction in payment)		
Is there evidence that organic or inorganic manures have been applied within prescribed buffer zones to the swale or drains entering the swale (If answer is yes 10% reduction in payment)		
Is there evidence of any other damaging activities in or adjacent to the swale or drains entering the swale (If answer is yes 10% reduction in payment)
