Proposed Units	Plants/Whips	Proposed 100% Payment	€

MEASURE VERIFICATION CHECKLIST	YES	NO
--------------------------------	-----	----

Has the riparian/alluvial woodland been established at the location identified on the project farm plan by the date specified in the project farm plan (if no 100% non-payment for the measure or pro rata payment for % planted))		
Are whips/plants in the woodland establishment approximately 2 metres apart within the row with the rows approximately 2 metres apart (if answer is no 5% reduction)		
Is there at least 1 species from Hawthorn, Birch, Beech, Willow, Alder, Ash, Oak, Cherry or Buckthorn planted throughout the woodland (if answer is no remedial action is required)		
Are there flailed or dying plants/whips present? If answer is yes remedial action is required at next dormant stage (If not remedied pro rata reduction)		
Is the woodland fenced off from livestock with a fence line that is fit for purpose (if no 10% reduction in payment and remedial action is required)		
Is there any evidence of grazing by livestock within the newly established woodland/tree line? (if answer is yes 10% reduction in payment and remedial action required)		
Is there any evidence of damaging activities present such as the application of pesticides, organic manures, dumping, poaching, supplementary feeding or rotted fodder (if yes 10 % reduction in payment)		
Is there any evidence of invasive plant species present? If answer is, yes remedial action is required immediately.		
Is there any evidence of artificial drainage entering adjacent watercourses through the newly established woodland (If yes pro rata reduction in payment – refer to Farm Assessment Score)		
Is there a plant passport available to certify that stock was purchased from a registered source (If answer is no remedial action is required)
